23 & 24 NOVEMBER 2015
EUROPEAN CONVENTION CENTER LUXEMBOURG

FIND YOUR PARTNER FOR YOUR R&D PROJECTS AND TECHNOLOGICAL COOPERATION

The EU has defined a strategic objective to boost reindustrialisation and increase the manufacturing industry's contribution to GDP of approximately 16% to as much as 20%. In order to succeed, it is essential to optimise the use of key instruments such as the European Structural and Investment Funds and Horizon 2020 and widen the access to finance for new manufacturing ventures as well as established companies with high growth potential on a global level.

Manufuture 2015 aims to attract around 800 participants. Join a community of business leaders, researchers, innovators, policy makers, representatives of key technology platforms and numerous European Commission representatives. Listen to over 50 international speakers and give your input to the debate about the future of European industry!

Manufuture 2015 will:

- Assess manufacturing research and development progress in Europe compared with global competitors
- Define the conditions needed for successfully reindustrialising Europe
- Identify and endorse new policy instruments, business models, support mechanisms and technologies
- Develop recommendations for policy makers

Enterprise Europe Network organises a **brokerage event on November 23 and 24** focusing on the following topics :

- adaptive manufacturing
- zero defect manufacturing
- additive manufacturing
- circular economy
- industry 4.0
- key enabling technologies

The B2B Networking provides companies, corporations, researchers and investors the right contacts to seize the opportunities and build collaboration across the borders. By participating B2B Networking you will get access to extensive technology expertise and new business channels and select your face-to-face meetings in advance by creating an online profile.

Why participate?

- Establishing technology and commercial partnerships
- Meet companies and research institutes with complementary core competences

- Building quality partnerships for Horizon 2020 projects
- Showcase your most favourable projects, products or know-how
- Initiate cross-border contacts
- Examine business and investment opportunities

How to apply?

- Fill out your online registration form
- Submit your partnership profile
- Select workshops and B2B meetings
- Receive your preliminary
